The Warsaw Signal
WARSOW, IIIINOIS
WEDNESDAY, APRIL 5, 1854.

That long, dull, and tiresome war, which has occupied the attention of the nation for so many months, has at last come to an end. The treaty of peace was signed at Washington, and the terms of the agreement have been formally announced.

FROM THE HOLY CITY.—We have received a letter from the city of the saints, containing the following anxious information: the Prophet Joseph Smith has been expelled from the city, and has taken refuge in the mountains. This is a most alarming state of affairs, and we earnestly hope that the authorities will take steps to prevent further outrages.

TEXAS.

A letter has been received from a citizen of Texas, containing the following startling information: a treaty of annexation has been signed with the United States, and the state of Texas will become a part of the Union. This is a most astonishing development, and we shall closely follow the progress of events.

SOMETHING NEW!

New Store! New Goods, and New Prices!!!

I HAVE just received and am now opening the New Brick Store, corner of Main and Washington streets, an entirely new, complete, and splendid store forasmuch, being altogether new, and not to be equalled.

Mr. Calhoun has accepted the office of Secretary of State. It now appears evident that his appointment was made in view of the annexation of Texas, and the settlement of the Oregon Question.

WARSAW, ILLINOIS, APRIL 25, 1844.

The joy and amusement of the situation was not to be described. A hundred thousand of the people who had opposed the measure were now in favor of it. The men became smokers, and exercised the right to vote, and the next day the streets were as full of voters as any street in the West. Many were seen in small groups, with joints of tobacco in their hands, talking and laughing heartily.

The speech of the governor was a very great success. He had been heard with the clearest enunciation and the most expressive gestures. His voice was clear and distinct, his pronunciation perfect, and his gestures graceful. He had made his audience feel that he was speaking to them as a man, and not as a politician. His speech was received with the warmest applause.

The election was held on the 1st of May. The polling-place was in the courthouse. The crowd was immense, and the interior of the building was crowded to the doors. The ballots were cast, and the result announced. The candidates who were elected were:

The joy and astonishment of the unexpected heir caused him the loss of his senses. A hundred thousand francs for nothing! You must be joking! It is ridiculous! There can be no means to bury his father! The young officer, anxious and concerned, came to a neighbor's house for security, but the next day the torches were blazing, and the door was locked. He then went to the house where the body was found, and laid it in the grave. He had not heard the news.

The result was that the first had not been in it a minute, and the second had little more than the first; the third had not been in it four hours. The speech given was the red chief, and the red chief's was a woman's speech, more nearly resembling a woman's than anything I have seen, but I think more liable to injury by being left with the Sisperian white chief boarded or his white chief not boarded. There is something wrong with the speech of the woman, if not enough to cause her to be taken in, at least enough to cause her to be taken in.
